IN THE SPEAKERS' SERVICE CENTRE

The SSC hostesses will be happy to welcome you in a relaxed and friendly atmosphere. Highly experienced and skilled technicians will assist you to valid your presentation. Once uploaded to the respective lecture room, presentations will be played locally.

Rehearsal

In the SSC, a demonstration lectern will be representative of what is supplied in the lecture room. We **strongly recommend** that all speakers should familiarize themselves with the mouse control.

To the attention of MAC users!

If your presentation is on a Mac computer, we kindly urge you to meet with a dedicated Mac technician in the SSC to either make sure that your presentation will run properly on the PC's or to anticipate a backup solution.

IN THE LECTURE ROOM

In the lecture room, as soon as your presentation is launched by the technician, you can easily follow it on a monitor at the lectern and control it directly with a mouse.

We strongly recommend the use of the mouse pointer, instead of any laser pointer.

Chairpersons will easily follow the presentations on a dedicated monitor.
