Dear Industry Partners,

On behalf of the Council on Cardiovascular Nursing and Allied Professions (CCNAP) and the Irish Nurses Cardiovascular Association (INCA) it gives us much pleasure to announce that the 9th Annual Spring Meeting on Cardiovascular Nursing will be hosted in Dublin, Ireland, 24 – 25 April 2009.

In the last 10 years advances in pharmaceuticals and devices have expanded the therapeutic modalities for those with cardiovascular disease. Parallel to this expanded choice in medical management, cardiovascular nursing and allied professions have also advanced and developed increasingly autonomous roles related to arrhythmias, heart failure, chest pain, cardiac rehabilitation, sudden cardiac death screening, cardiovascular disease prevention, device management, adult congenital heart disease and circulatory support. Cardiovascular nurses have responsibility for managing therapy, ensuring patient adherence and adjustment to treatment, and increasingly are taking on prescribing roles in many countries. As nurses have taken on these roles they have become the centre of the patient care model for both the multi-disciplinary care team and those working in the device and pharmaceutical industry.

In relation to Industry, the cardiovascular nurse or allied professional may be the first person that a medical representative meets when visiting health care institutions. It is often this person who brings back the information to the cardiologist and the multi-disciplinary care team, along with patient feedback, when patient management is being planned and discussed.

Our Spring Meeting will offer a very exciting programme which will gather together nurses, allied professionals, researchers, lecturers and clinicians involved in cardiac care. We will have keynote presentations and breakout sessions from internationally and nationally renowned faculty.

Key representatives from the Irish Nurses Cardiovascular Association, the ESC Council on Cardiovascular Nursing and Allied Professions and the ESC Congress Division have already launched production of this conference which is bound to be regarded as the European event for nurses and allied professionals in the Cardiovascular arena.

We welcome both our dedicated Industry Partners and all newcomers to participate at CCNAP 2009 our “family” gathering, and look forward to working with you towards a most successful conference.

Looking forward to seeing you in Dublin!
