

Splash adverts & Push notifications Technical specification

EHRA 2018

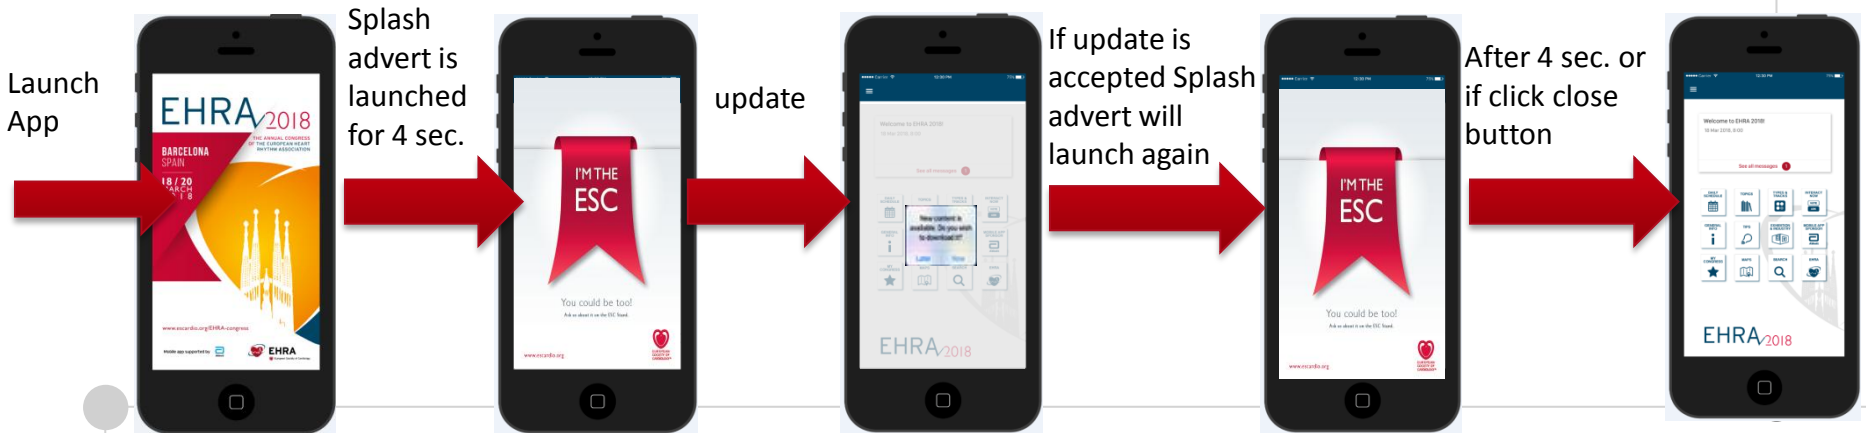

● 18 – 20 March 2018

Description of Splash advert & Push notification

- A virtual and innovative way for session organisers to reach out to delegates by offering electronic and catchy versions of their Adverts (Splash Screen) in the Mobile App.
- These Splash adverts/Push notifications are to promote to delegates your session; as a “Not to be missed” reminder scheduled during the day
- The Push notification is always linked to the related splash advert
- Each congress day, the splash advert will occur after the Mobile app is launched and has been updated. (NOTE: if the delegate does not update the App, the splash advert still takes place)
- The splash adverts have been scheduled according to the Satellite Symposia schedule

What is the “splash advert”?

- A splash advert is an image which will « splash » on the mobile app screen. The splash screen will appear once the app is launched during a specific time period

What is the « Push Notification »?

- If the Mobile app is closed or if the device is on standby (screen locked) the push notification will come up to remind the delegate of the session “splash advert”
- Push notification is only text, no image
- The push will remain in chronological order in the news feed
- The push will include the hyperlink to the Satellite Symposia Session in the mobile app
