

Hands On Tutorial Auxiliary Services Catalog

**ESC Congress 2016**  
Rome 27-31 August 2016

# Hands On Tutorial Overview

Each room has an inner surface of 8 x 10 m. for a total of 80sqm.

The floor is on a raised platform 12cm covered in standard gray carpet (code 420 Peltro ref. Pag.15) accessible by an inclined ramp covered with the same carpet.

The color of the carpet can be changed (with a charge) with those available on page 15, with the exception of the access ramp that will remain the standard color.

All the walls are constituted by a double layer of wood honeycomb (with internal sound absorbing material), coated with white lacquered panels. White lacquered panels can be replaced by black panels or graphic panels (with a charge).

The external facade can be personalize with graphic (with a charge) except the panel above the door, (send your graphic to [congress@studioarancio.net](mailto:congress@studioarancio.net) according to the specifications given in the next page). In case of logos without shading, the logo will be applied with adhesive directly to the lacquered panel.

The ceiling is made of wooden panels with soundproof material on top. On the ceiling there are 18 LED lamps of 18W each. dimmable with a command inside the room. You will not hang anything from the ceiling.

The door is a sliding double panel with electronic lock (outside) for closing.

On each internal side of the room there is an outlet 16A provided with a power of 1KW for a total of 4 electrical outlets in the positions indicated in the drawings.

Each room is equipped with 2 air conditioners 12000 Btu separately adjustable.

In case you have booked more than one room, the partition wall between the rooms can be removed (with a charge). A door can be removed with no charge.

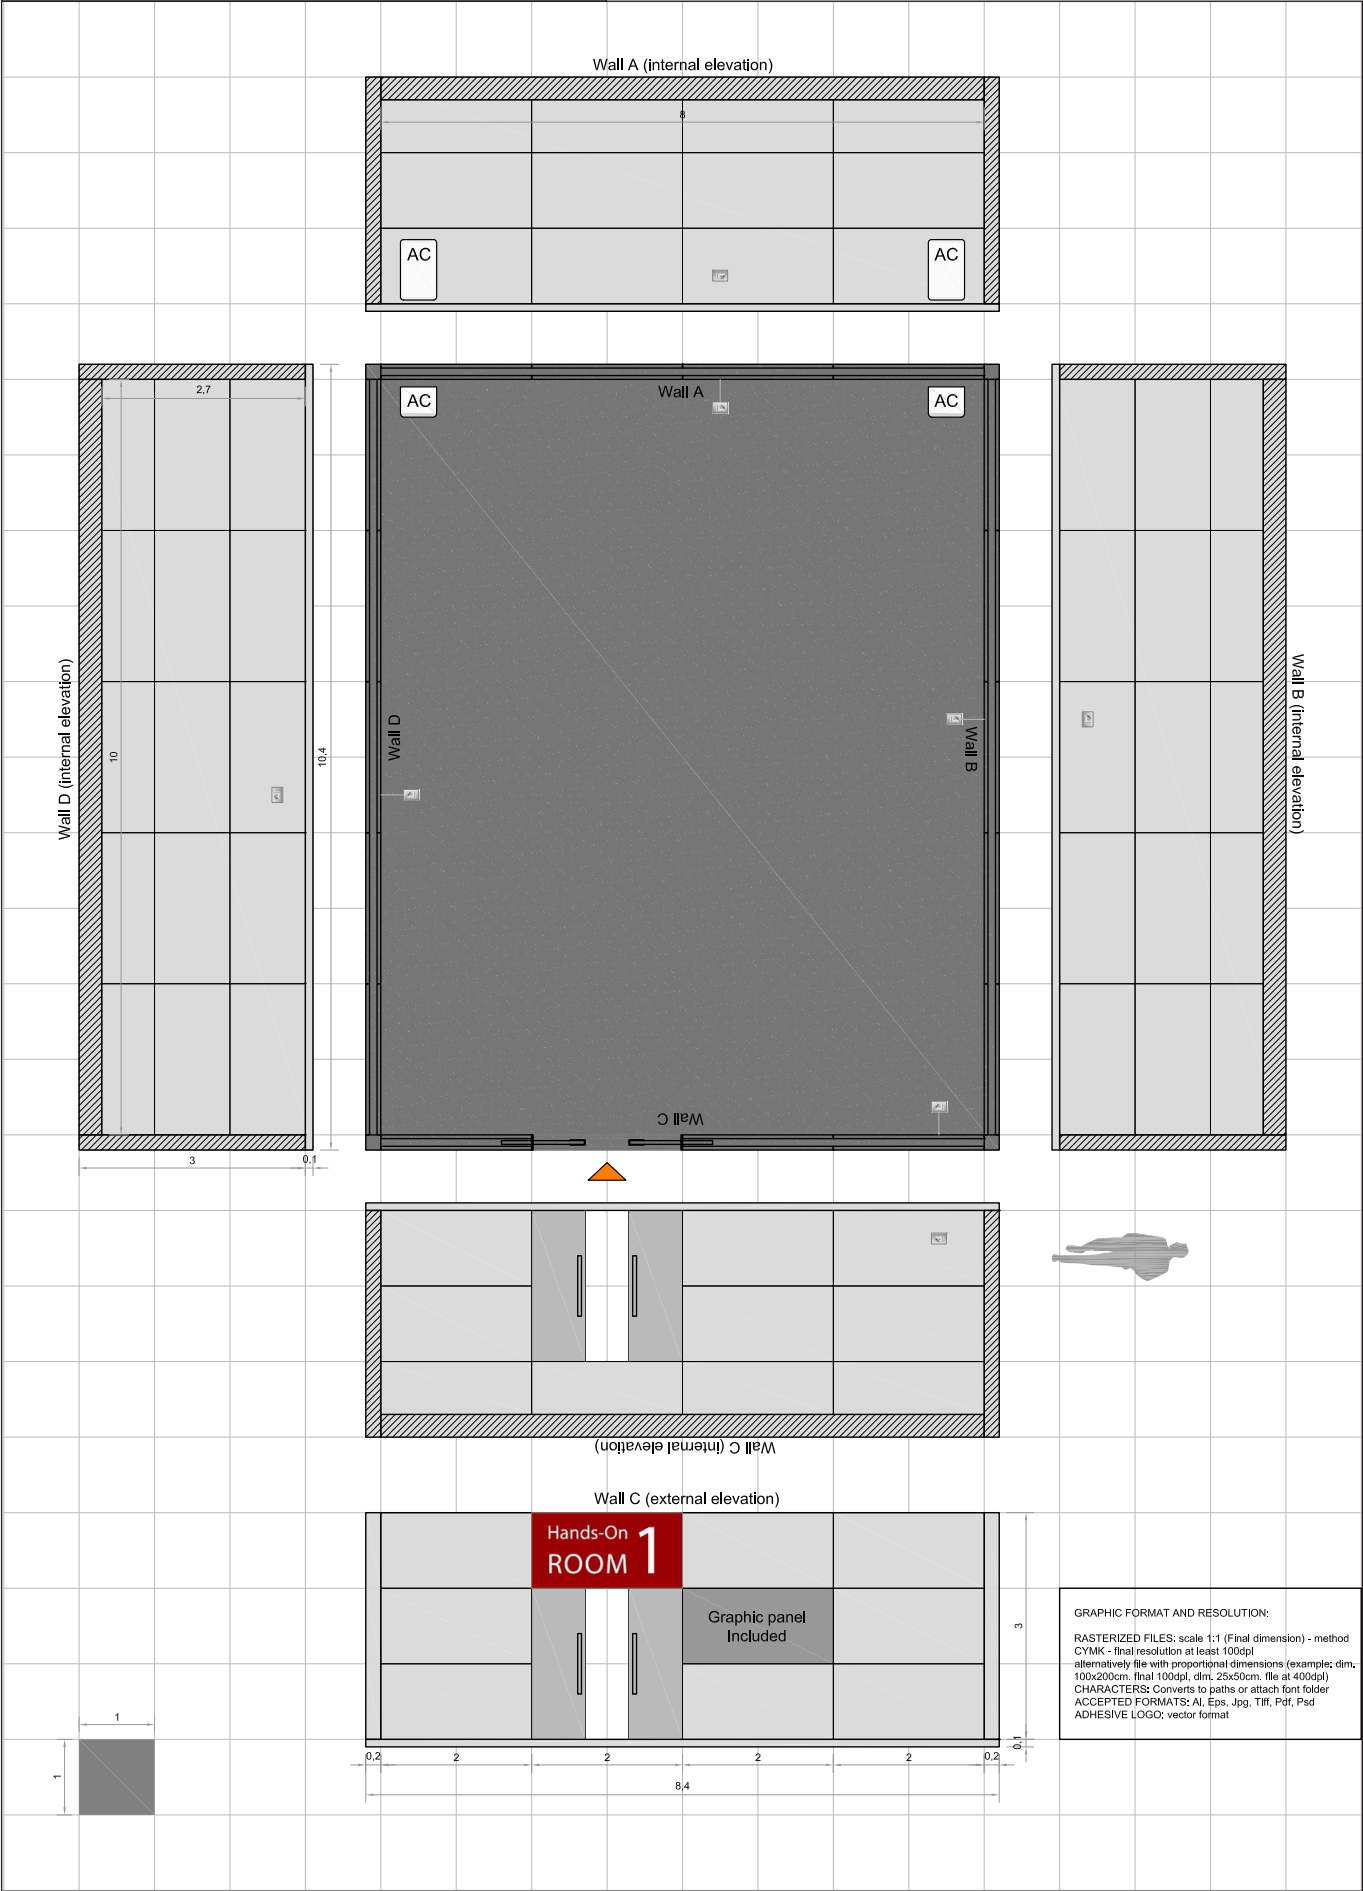

The room can be personalized with the furniture and accessories in this catalog.

In any case the walls of the structure cannot be altered or modified without a written consent to be request by email at [congress@studioarancio.net](mailto:congress@studioarancio.net) attaching a specific request.

Below the description of the rooms:

1. H12cm. platform covered with carpet in grey color (code 420 Peltro ref. Page 15)
2. Access ramp covered with carpet as above
3. External/Internal wall with white lacquered acrylic panels 200x100cm.
4. Ceiling made of soundproof panels in white color
5. Lighting system composed of n°18 dimmable led spotlights 18W each
6. Electric system with 4 sockets (1 per wall) 1KW each and general control box
7. Double lockable sliding door with electronic keypad outside
8. Air conditioning system with 2 split 12000 Btu
9. Ink-jet printed panel for external personalisation of the room (N°01 panel 200x100cm)
