• No use of tobacco • Adequate physical activity • Healthy eating habits • Not overweight • Low Blood pressure • Low Blood cholesterol • Normal glucose metabolism • Avoidance of excessive stress

Welcome to EuroPREvent 2009, the European meeting place for science in preventive cardiology. This congress marks the end of a five-year period of political activity at the highest European Union level, starting off with the first initiative under the Irish presidency in 2004 and culminating with the presentation of the European Heart Health Charter at the European Parliament in June 2007. Time to meet and evaluate the outcomes!

For three and a half days, EuroPREvent 2009 will provide an innovative meeting format for all partners in prevention: scientists, health workers and others active in the field of preventive cardiology.

On Wednesday, pre-congress sessions will be offered for family doctors, occupational health physicians, school health staff, nurses, physiotherapists, heart foundations and decision makers.

Thursday is the genuine European prevention forum, where all partners will gather around the eight main themes of the Heart Health Charter for broad State of the Art lectures and for update demonstration projects.

Friday and Saturday will be dedicated to in-depth scientific sessions and the presentation of new research. High visibility will be given to the abstract based portion of our scientific programme. The congress includes a Young Investigator Award Session, "Meet the Expert" early morning discussions and Satellite Symposia from our Industry Partners. Among the many novelties, our visitors will find an "ongoing science" session and a Highlight Session at the end of the meeting.

In the Nordic countries visitors appreciate the traditional "Smörgåsbord", a broad variety of delicious small dishes that fits the taste of many, even the most demanding gourmets. EuroPREvent 2009 will prove to be a true scientific Smörgåsbord with the 'Venice of the North' offering her spectacular springtime scenery.

Unrestricted Educational Grant – support for Scientific Sessions

Companies are permitted to 'associate' with the Scientific Programme of EuroPREvent 2009.

An Unrestricted Educational Grant will imply an association, by Industry, with an aspect of the Scientific Programme, not influenced by the supporting company by means of speaker suggestion, topic proposal or other such involvement. The support of a scientific session in the form of an Unrestricted Educational Grant implies the acceptance of the EuroPREvent 2009 Committee to permit our industry partners to associate in name only with a session already defined, in full, as part of the EuroPREvent 2009 scientific programme.

In supporting the session, in the form of an Unrestricted Educational Grant, the company will be recognised by the following phrase wherever the session is detailed on any EuroPREvent 2009 programme: "Supported by 'Company X' in the form of an Unrestricted Educational Grant".

Acknowledgement of Unrestricted Educational Grant will be noted as follows:

Under the relevant session listed in EuroPREvent 2009 Final Programme Printed Version.
Under the Industry Partner heading in the EuroPREvent 2009 Final Programme, both Printed version and Online (Page entitled Exhibition, Satellite & Sponsors)

€8 000

Fun Run

The Fun Run will be held on Friday, 8 May 2009. The run will commence at 07:00 sharp from the Congress Centre and proceed along a 5km circuit. During the congress, a registration table will be set up from Wednesday, May 6 so that delegates can register. The corporate name and logo will be noted on the registration table and acknowledged via the EuroPREvent 2009 Final Programme and website.

Fun Run Exclusive Sponsor **€ 5 000**
