Welcome Address from our Leadership

Dear Industry Partners

It is our great pleasure to formally announce EuroPRevent 2016, the European Association for Cardiovascular Prevention and Rehabilitation’s (EACPR) showcase congress which will be held in Istanbul, Turkey from 5 – 7 May 2016.

EuroPRevent has been a key international scientific event for cardiovascular disease prevention and awareness for over 10 years now. It provides the opportunity for clinicians and scientists from all over the world to gather to learn about new advances and to exchange scientific ideas and knowledge in a distinctive environment. As always, our congress will provide an exceptional opportunity by which our industry partners may network and learn with the most influential specialists from across the world.

EuroPRevent 2016 will allow participants to share new findings, to exchange and to open new educational channels. We will welcome between 1 500 to 2 000 delegates from all cardiovascular realms with the specific aim of engaging cardiologists, young researchers, general practitioners, policy makers, nurses and allied professionals. As a sponsor, you too will be an active contributor to the scientific content by exhibiting, organising symposia and presenting the latest updates on your products.

Our main area of scientific concentration will be bridging the gap between cardiology and prevention as a priority providing key perspective on primary and secondary prevention, the science behind it and tools for delivery. One particular way with which we will demonstrate the need for better cardiovascular disease prevention awareness will be with our theme ‘Cardiovascular Health in the Young’. We cannot simply discuss cardiovascular disease prevention without a focus on cardiovascular health and quality of life emphasis. This calls for full health maintenance from birth to golden years and can be broken down in many diverse aspects such as: diet, nutrition, exercise, genetics, risk factors including lipids and hypertension, socio-economic factors, diagnostics, clinical advances and more.

As a privileged partner, you too will be an active contributor to the scientific content and we look forward to discussing how we can work together in the very near future. This is one of the best moments to meet renowned experts and our young cardiologists who are soon to be the future of the field.

We hope that you will consider supporting EuroPRevent 2016.

About the EACPR

With a mission of ‘to promote excellence in research, practice, education and policy in cardiovascular health, primary and secondary prevention’ our aim is to prevent the incidence of cardiovascular (CV) disease, by implementing strategies to reduce the burden of CV risk factors and incidence of CV disease, and develop appropriate models for healthy CV lifestyle. The EACPR plays a pivotal role in all aspects of the primary and secondary prevention of cardiovascular disease and cardiovascular health, according to the policy of the European Society of Cardiology (ESC) and has a member base of over 5,000 health professionals representing 120 countries (55% European and 45% from countries outside Europe).

The subspecialties of the Association are prevention, epidemiology & population science, exercise, basic & translational research, cardiac rehabilitation and sports cardiology.

Key topics to be addressed

- Atrial fibrillation
- Cardiac rehabilitation
- Diabetes
- Epidemiology
- Exercise testing
- Exercise training
- Genetics
- Health economics
- Hypertension
- Lipids
- Nutrition
- Obesity
- Physical activity
- Preventing cardiovascular disease in the young
- Psychosocial risk factors
- Public health / health policy
- Pulmonary hypertension
- Risk factors
- Risk scoring
- Secondary prevention after ACS
- Smoking
- Sports cardiology
- Telemedicine

Key reasons to sponsor

Every year the EACPR hosts a congress on cardiovascular disease prevention. This congress, called EuroPRevent, is the premiere international event where leading experts from all the scientific fields in cardiology get together to discuss strategies for a universal approach towards the prevention of cardiovascular disease. EuroPRevent is not just a discussion concerning disease prevention; it has a focus on cardiovascular health integrating diverse aspects such as: diet, nutrition, exercise, genetics, risk factors including lipids and hypertension, socio-economic factors, diagnostics, clinical advances and much more.

Key reasons to attend

- Dynamic scientific content that provides a natural interactive platform for all professions interested in sports cardiology, cardiac rehabilitation, lipid disorders, risk factors, prevention, nutrition, epidemiology, secondary prevention after MI and more - specifically the launch of the New ESC Prevention Guidelines during the congress.
- Guaranteed interaction with esteemed KOLs in the field. The congress brings together the finest international health experts to present their research and translate it into usable knowledge for practitioners, health care workers, researchers and policy makers.
- Specific sessions dedicated to Young Cardiologists in the field.

Key networking & educational opportunities

- Medical specialties sharing common or related issues are represented with the sister societies.
- Joint sessions with international associations offering even more possibilities for an international audience.
- Young cardiologists to renowned experts are present offering opportunities for dialogue with senior cardiologists as well as the future stars of the field!
- The opportunity to present your latest developments to an enthusiastic audience all the while educating them!

Industry Activities at EuroPRevent 2016

EuroPRevent 2016 offers 3 days of unprecedented scientific, promotional and networking opportunities for companies active in the field of prevention. Ensure your company is considered as a key player in the field by your presence in the following areas:

**Exhibition:**
Present your product, services and delegates to over 1 500 delegates by showcasing your company in the exhibition hall.

**Satellite Symposia:**
Present your latest scientific data and ensure your contribution to the scientific programme by organising satellite symposia open to all delegates.

**Official Sponsorship:**
Present your company as an official sponsor of EuroPRevent 2016 for distinguished association with the congress and its scientific programme.

**Partners Services:**
Organise private meetings at EuroPRevent 2016.

**Important:**
All requests for exhibition space, satellite symposia, sponsorship opportunities or partner services will be allocated on a first come, first served basis. All prices listed within this document are exclusive of VAT unless otherwise indicated; payment is in Euro (€) only.
Exhibition Space
At the heart of the congress centre, the exhibition will give you the opportunity to exchange with key industry experts on critical areas of development and research in cardiovascular products and therapies. The exhibition will be a central hub for scientific exchange during the congress.

Stands will be assigned on a first come, first served basis.

Price for space only: €400 per m² excl. VAT
Price for Publishers: €250 per m² excl. VAT

The minimum exhibition space is 9 m² (6 m² for publishers and booksellers).

Exhibitor Badges
Exhibitors are entitled to a certain number of free badges.

The number of free badges for each exhibitor will be determined according to the floor space allocated as shown below.

Satellite Symposia

Integrative approach to cardiopulmonary exercise testing

1. Determine readiness for CPET
2. Review risk factors: clinical and laboratory information, polyclinical tests
3. Indicate overall quality of care, assessment of patient effort, and reassessment exercise intensity
4. Measure key parameters: steady VO2, heart rate, HR, HR, SBP, and other measurements subsequently
5. Use tabular and graphic presentation of the data
6. Pay attention to testing phenomena: ventilation through nasal response
7. Compare respiratory response with appropriate reference values
8. Evaluate exercise limitation: physiological, anato-morphological
9. Establish patient's exercise response
10. Consider what conditions/methods may have influenced the patient's CPET results with clinical data

From CPET report
Ensure your contribution to the outstanding EuroPRevent 2016 scientific programme.

Companies are cordially invited to organise a satellite symposium to be included in the EuroPRevent 2016 scientific programme. These sessions are the perfect forum for delegates to learn and exchange on the latest scientific information and developments from the industry.

Satellite symposia will be held within the congress centre in lecture rooms ranging in capacity from 150 to 400 seats.

Satellite symposia organisers may organise receptions or distribute lunch boxes before or after the session. Satellite symposia will be assigned on a first come, first served basis.

Satellite symposia scientific programmes are subject to Congress Programme Committee (CPC) approval.
