Welcome Address from our Leadership

Dear Industry Partners

It is our great pleasure to formally announce EuroPrevent 2018, the European Association of Preventive Cardiology's showcase Congress which will be held in Ljubljana, Slovenia from 19 to 21 April 2018.

EuroPrevent has been a key international scientific event for cardiovascular disease prevention and awareness for over 10 years now. It provides the opportunity for clinicians and scientists from all over the world to gather and learn about new advances and exchange scientific ideas and knowledge in a distinctive environment. As always, our Congress will provide an exceptional opportunity by which our Industry Partners may network and learn with the most influential specialists from across the world.

EuroPrevent 2018 will allow participants to share new findings, to exchange and to open new educational channels. We will welcome between 1 000 and 1 500 delegates from all cardiovascular realms with the specific aim of engaging cardiologists, young researchers, general practitioners, policy makers, nurses and allied professionals. As a sponsor and privileged partner, you too will be an active contributor to the scientific content by exhibiting, organising symposia and presenting the latest updates on your products.

Our main focus is on moving prevention further to the center of cardiology, providing key perspectives on primary and secondary prevention, the science behind it and tools for delivery. One particular way in which we will demonstrate the need for better cardiovascular disease prevention awareness will be with our theme 'Evidence based cardiovascular prevention. A lifelong endeavour'. This calls for full health maintenance from before birth to golden years and can be broken down in many diverse aspects such as: genetics, nutrition, exercise, risk factors including lipids and hypertension, socio-economic factors, diagnostics, pharmacological treatment, clinical advances and more.

We look forward to discussing how we can work together in the very near future. This is one of the best moments to meet renowned experts and our young cardiologists who are soon to be the future of the field.

We hope that you will consider supporting EuroPrevent 2018.

Diederick E. Grobbee
MD, PhD, FESC, EAPC
President

Jean-Paul Schmid
MD, PhD, FESC
*Congress Programme
Committee Chairperson*

European Association of Preventive Cardiology (EAPC)

Our mission is '**to promote excellence** in research, practice, education and policy in cardiovascular health, primary and secondary prevention'. Our aim is to prevent the incidence of cardiovascular (CV) disease, by implementing strategies to reduce the burden of CV risk factors and incidence of CV disease, and develop appropriate models for healthy CV lifestyle. The EAPC plays a pivotal role in all aspects of the primary and secondary prevention of cardiovascular disease and cardiovascular health, according to the policy of the

European Society of Cardiology (ESC) and has a member base of over 6 000 health professionals representing 133 countries (55 % European and 45 % from countries outside Europe).

The subspecialties of the Association are prevention, epidemiology & population science, exercise, basic & translational research, cardiac rehabilitation and sports cardiology.

CONGRESS

EuroPrevent

EuroPrevent is the premiere international forum where leading experts from all the scientific fields in cardiology get together to discuss strategies for a universal approach towards the prevention of cardiovascular disease.

PUBLICATIONS

European Journal of Preventive Cardiology

The European Journal of Preventive Cardiology is the world's leading preventive cardiology journal, playing a pivotal role in reducing the global burden of cardiovascular disease. The Journal embraces all the scientific, clinical and public health disciplines that address the causes and prevention of cardiovascular disease, as well as cardiovascular rehabilitation and exercise physiology. Editor-in-Chief is Prof. Massimo Piepoli FESC and its Impact Factor is 3.606 (2016).

The ESC Textbook & Handbook of Preventive Cardiology

The official **textbook** of the EAPC on clinical practice is the state-of-the-art resource for both the primary and secondary prevention of atherosclerotic cardiovascular disease. It is comprehensive, practical and extensively linked to practice guidelines & recommendations from the Association. The Textbook is edited by Stephan Gielen FESC, Guy De Backer FESC, Massimo Piepoli FESC and David Wood FESC.

The **handbook** is putting prevention into practice. A 'how-to' manual for busy healthcare professionals based on the Oxford Care Manual of Preventive Cardiology that complements the Joint European Guidelines on cardiovascular disease prevention and is in line with recommendations from the Association. The Handbook is edited by Catriona Jennings FESC, Ian Graham FESC and Stephan Gielen FESC.

EDUCATIONAL ACTIVITIES & INITIATIVES

ESC Prevention of CVD Programme

Reducing morbidity and mortality among post-myocardial infarction and other patients at high risk of subsequent event require the implementation of effective prevention measures. Ischemic cardiovascular disease is a common condition. Large numbers of subjects around the globe are at an increased risk of a clinical manifestation of the disease. Without effective treatment of risk and risk factors, the immediate mortality after an acute event increases with a further rise in patients dying in the subsequent year. In those who survive an initial post-MI period, an increased risk of death from cardiovascular causes persists indefinitely. The ESC Prevention of Cardiovascular Disease Programme aims to promote effective prevention both among those with risk factors as well as those who survived a clinical event.

Clinical practice guidelines have provided indications on a range of prevention interventions among patient populations diagnosed with acute coronary syndromes and other clinical manifestations of ischemic cardiovascular disease, proven to improve long term outcomes such as revascularisation where indicated, optimisation of drug treatment (e.g. lipid lowering, blood pressure control, antithrombotics, antidiabetics) and lifestyle changes (e.g. regular physical activity, smoking cessation, healthy diet, weight loss where necessary).

Structured secondary prevention programmes are the best means to deliver such interventions and are highly recommended by current guidelines for all post-MI patients and patients with clinical indications of a similarly elevated risk. The clinical presentation drives the implementation modalities, strategy and setting according to the risk profiles, severity and stability. However, implementation of such programmes is inconsistent due to poor prescription, poor availability and poor adherence. There is a clear unmet medical need.

The ESC with the constituent bodies EAPC as the leader and ACCA and CCNAP as contributors are engaged in a cardiovascular prevention programme which will raise awareness and provide guidance to reduce residual risk and improve preventive interventions. The programme is being rolled out in three phases, and the current component (Phase 2: focus on secondary prevention) places special emphasis on risk modification by drug treatment: addressing lipid lowering and achievement of target levels for LDL-C in high risk patient populations, optimal use of antithrombotics in relevant populations,

improved blood pressure reduction and use of antihypertensives. Phase 3 (2018-onwards) will focus on implementation, evaluation and follow-up, by promoting continued awareness among health professionals and patients, and setting feasible standards and priorities for implementation according to the 2016 prevention guidelines (implementation tools, audit and accreditation models).

The EAPC aims to offer comprehensive programmes for disease prevention and build strong scientific and professional foundations by promoting all aspects of cardiovascular health. It has the responsibility to guide the application of cardiovascular prevention into clinical daily practice.

eLearning - ESCeL

With 27 courses and 11 practical cases the EAPC e-learning programme will complement the Preventive Cardiology textbook by providing access to case-based learning, recorded educational materials, and MCQs for self-assessment.

Educational Courses

The EAPC organises yearly educational courses on:

- Research methods in preventive cardiology
- Cardiopulmonary exercise testing in cardiology
- How to set up / improve cardiac rehabilitation programmes
- Sports cardiology

EAPC Webinars

EAPC Webinars are live, interactive, 60-minute online courses, presented and moderated by EAPC experts and designed to provide attendees with practical training via relevant clinical cases and live assessment.

CVD Prevention Tools

Practical decision-making tools designed to support health professionals and policy makers in their daily practice: HeartScore, SCORE charts, HeartQoL and more!

EuroPrevent Facts & Figures

Key Figures

-  **3** days of science
-  **59** scientific sessions
-  **146** faculty members
-  **681** abstracts submitted

MP Moderated Posters CB Coffee Break

Past EuroPrevent Industry Partners Participation

The following is the list of Industry Partners who have participated in previous editions of the EuroPrevent Congress:

Amgen (Europe) GmbH
Aspetar
AtCor Medical
Axelife SAS
Bittium Corporation
Bold Technologies Leading Espana SL
CamNTEch Limited
Carocelle Cambridge Micelle Technology
Cosmed Srl
DSM Nutritional Products AG
Imedos Systems UG Am Nasstal 4
Institute for Scientific Information on Coffee
Novartis Pharma AG
Oxford University Press
Pfizer Ltd
Sanofi-Aventis Groupe
Servier
Shire International GmbH
Toshiba Medical Systems Europe BV
Wisepress Online Bookshop Ltd

Exhibition

The exhibition is an integral part of the Congress. The exhibition provides delegates with the opportunity to exchange with key industry experts on critical areas of development and research in cardiovascular products and therapies. The exhibition will be a central hub for scientific discussion and exchange during the Congress.

Exhibition Timetable

Wednesday 18 April 2018	09:00 - 18:00	Custom stands build-up
	12:00 - 18:00	Stand Packages delivered, ready for decoration
Thursday 19 April 2018	08:00 - 08:30	Exhibit decoration only - ESC inspection and staff briefings can be held on the stands
	08:30 - 18:00	Exhibition OPEN
	18:15 - 20:00	Inaugural Session and Networking Reception
Friday 20 April 2018	08:30 - 18:00	Exhibition OPEN
Saturday 21 April 2018	08:30 - 12:00	Exhibition OPEN
	13:00 - 20:00	Exhibition Dismantling

Exhibition Space

Provide delegates with a unique opportunity to gather, share new findings, exchange and to showcase your products in the exhibition.

	Industry	Publishers, Booksellers
Price excluding VAT	€400/m ²	€250/m ²
Minimum exhibition space	9m ²	6m ²

Exhibitor Badges

Exhibitors are entitled to a certain number of free badges. The number of free badges for each exhibitor will be determined according to the floor space allocated as shown below.

Stand size	General Exhibitor Badges	Scientific Exhibitor Badges
9 - 49m ²	4	4
50 - 99m ²	8	8
100+ m ²	12	12

General exhibitor badges will not allow access to the scientific sessions of the Congress except for those sessions sponsored by the exhibitor.

Scientific exhibitor badges will allow access to the scientific sessions of the Congress.

Neither badge entitles the holder to get a Congress bag, a certificate of attendance and do not include a journal subscription.

Price for additional General Exhibitor badges: €100 / badge

NOTE

- Stands will be assigned on a first come, first served basis.
- **Application deadline: 16 November 2017**

Industry Sponsored Sessions

Industry Sponsored Sessions allow for the review and discussion of recent trials and ongoing studies with the objective of providing the latest information on new therapies and techniques in cardiovascular medicine.

cardiopulmonary

1. Determine reason(s) for CPET
2. Review pertinent clinical and laboratory information (clinical status)
3. Note overall quality of test, assessment of subject effort, and reasons for exercise cessation
4. Identify key variables: initially $\dot{V}O_{2\max}$, and then HR, VE, $\dot{V}O_{2\max}$, and other measurements subsequently
5. Use tabular and graphic presentation of the data
6. Pay attention to trending phenomena: submaximal through maximal responses
7. Compare exercise responses with appropriate reference values
8. Evaluate exercise limitation: physiologic versus nonphysiologic
9. Establish patterns of exercise responses
10. Consider what conditions/clinical entities may be associated with these patterns
11. Correlate CPET results with clinical status
12. Generate CPET report

Satellite Symposia

Companies are cordially invited to organise a series of Satellite Symposia included in the EuroPrevent 2018 Scientific Programme. These sessions will offer pertinent data on the latest scientific information and developments from the industry. Satellite Symposia will be held within the congress centre in lecture rooms ranging in capacity from 100 to 400 seats. A limited number of timeslots have been made available for Satellite Symposia. Satellite Symposia organisers may organise receptions or distribute lunch boxes before or after the session. Satellite Symposia will be assigned on a first come, first served basis.

Date	Timeslot	Duration	Exhibitor Price	Non-Exhibitor Price
Thursday 19 April 2018	12:45 - 13:45	60 mins	€15 000	€18 600
Friday 20 April 2018	12:45 - 13:45	60 mins	€15 000	€18 600

The following items are included in the price of a Satellite Symposium:

- Room rental
- 1 delegate bag insert
- 1 weblink
- 1 room hostess
- Access and use of audiovisual equipment in lecture room
- Companies organising a non-exhibitor Symposium will be provided with an allocation of 4 scientific badges and 4 general badges.

NOTE

The full list of equipment will be communicated upon room assignment. Cost of additional equipment, furniture, food and beverage will be at the expense of the sponsor.

- Industry Sponsored Sessions will be assigned on a first come, first served basis.
- Industry Sponsored Sessions Programmes will be published in the EuroPrevent 2018 Scientific Programme & Planner (SPP) and on the Mobile App.
- All Industry Sponsored Sessions Programmes are subject to EuroPrevent 2018 Programme Committee approval.
- **Application deadline: 16 November 2017**

Sponsorship, Promotion and Advertising Opportunities

A wide range of services for Congress attendees are available for sponsorship by our Industry Partners providing essential support for the Congress and opportunity for novel communication to the healthcare profession.

This table summarises the type of exposure offered by some of our products:

Onsite Advertising

No product advertising permitted

Blend your company name with the venue and communicate on your therapeutic areas of research & innovation, promote your Industry Sponsored Sessions or encourage delegates to visit your stand by branding various highly visited locations available throughout the Congress centre. Please contact industry@escardio.org to enquire about the different opportunities.

We kindly remind you that no product names, brand names, trademarks or misleading names which may be perceived as product or brand names, are allowed on the onsite advertising.

Reach & audience: all Congress delegates, about 1 300 pax

Lifespan: Congress

[BACK TO TOP](#)

Screencast - Voice and slides

No product advertising permitted

Purchase recordings from your Satellite Symposium for your own promotional purposes. Use the database you have assembled onsite (by scanning badges with the Badge Lead Management System) and over the years to extend the reach of your congress activities. The Screencast will capture the speaker's voice and slides (no video).

Screencast files will be sent to sponsors after the Congress. Onsite educational content does not stop in Ljubljana, as eBlasts can promote Screencasts and ensure the spotlight is kept on your activities even after the Congress has passed.

Reach & audience: your own database

Lifespan: post-congress

€2 500

NOTE

- The use of product names identifying product logos, misleading names that could be perceived as product names or registered trademarks are strictly limited and are only permitted for products and services where product promotion is clearly stated.
- For a given product where it is mentioned "ESC permits product advertising", local regulatory approval is incumbent on the company selecting the product and is not a valid clause for refund of services.
- Sponsorship items will be assigned on a first come, first served basis.
- **Application deadline: 16 November 2017**

Partner Services

The ESC has created two product categories to allow companies to organise different meeting formats within the congress centre, during congress hours.

ROOMS AT EUROPREVENT

Function Spaces

The ESC allows companies to host a limited number of guests and organise small and informal meetings (approx. 26 pax) in a range of rooms available within the congress centre. No training or showcasing of products/therapies may take place in the Function Spaces.

The rooms include a standard set-up. Function Spaces organisers are responsible for additional furniture, AV equipment and catering arrangements.

Price and complementary information are available upon request.

Closed Industry Meetings

During available timeslots, fully furnished and AV equipped lecture rooms can be used to organise closed Industry Meetings which are on invitation only. The following rules apply to this meeting category:

- Meeting is “closed” and on invitation only.
- Maximum attendance is 150 guests.
- Meeting is not promoted in the congress centre or in any EuroPrevent 2018 publications.

Closed Industry Meetings	Price excluding VAT
60-minute meeting	€3 000
Additional cost per increment of 30 minutes	€1 500

Permitted meeting types:

Company staff meeting, Congress briefing, investigators meeting, clinical trial updates.

Strictly forbidden: meeting with any formal presentations for delegates.

NOTE

- Rooms will be assigned on a first come, first served basis.
- **Application deadline: 16 November 2017**
- Industry meetings open to EuroPrevent 2018 delegates are strictly forbidden outside of the official EuroPrevent Congress offer (Industry Sponsored Sessions and Rooms at EuroPrevent). Companies are requested to respect this rule from 19 April through 21 April 2018, from 08:00 to 20:00.

Key Dates

Exhibition, Industry Sponsored Sessions, Sponsorship and Partner Services deadline	16 November 2017
Abstract submission deadline	9 November 2017
Early registration deadline	8 February 2018
Late registration deadline	15 March 2018
EuroPrevent 2018, Ljubljana, Slovenia	19 - 21 April 2018

Application & Guidelines for Industry Participation at EuroPrevent 2018

All exhibition, satellite, sponsorship and partner services forms should be completed, signed and returned as soon as possible, as items will be assigned on a first come, first served basis.

Returning a signed 'Order Form' implies a tacit agreement of the "EuroPrevent 2018 Guidelines for Industry Participation".

The "EuroPrevent 2018 Guidelines for Industry Participation" will be communicated to the participating companies in due course to help with the organisation of the event.

All terms and conditions regarding your participation will be detailed in these "Guidelines for Industry Participation".

Should you require any further information regarding the application process, please contact us at industry@escardio.org.

For all other information please contact:
