Walls & doors

ALU and WOOD are the names of our two popular wall systems. They offer lots of scope for building a stand that, perfectly suits your needs. Flexibility and simple assembly are the bywords for both. And the system can be extended with a ceiling, lighting battens and drapes or hangings. Just decide whether you want the elegant ALU (aluminium), profiles or the unbroken lines of the WOOD system. Would you like the WOOD walls to be painted? No problem! Choose from seven standard colours, or supply us with an NCS number of the colour you require.

Counters, cupboards & shelves

Put up your posters or signs. Set out the goods. Present them. And sell. We've found out the best ways to show what you have and what you know. We know what works on a stand. We've learned what makes customers cross the threshold of a stand and enjoy their visit. And we've discovered what enables you and your colleagues to work rationally and comfortably - even when the pressure is really on, which is of course, the best time of all.
