

An environment-conscious Fair

Waste sorting and utilisation at the Helsinki Fair Centre

The Finnish Fair Corporation has launched measures for sorting the waste accumulating at the stand building and removal stage. From autumn 2001 onwards our customers can leave all stand-related waste in places set aside for that purpose, to be sorted by our cleaning staff and transported to a suitable location.

Measures at the building stage

Our environmental supervisor contacts the stand building staff as they enter the site. All building waste must be piled in a place within the stand indicated by the supervisor. Our cleaning staff will then collect the waste for sorting in an environmental station. Note that it is forbidden to leave any waste on the corridors between the stands.

Measures during the fair

The exhibitor is responsible for cleaning the stand. The stand cleaning services ordered from ISS Siivouspalvelut Oy for the exhibition period include waste sorting and transportation. All stands are cleaned daily as the exhibition closes for the day.

The exhibitor can dump the waste that has accumulated during the day in the waste bins outside exhibition area (please see the lay out of the exhibition). All waste must be sorted. If you need cleaning during the day, you can book it separately from ISS Siivouspalvelut Oy.

At the end of the exhibition day, the exhibitor can dump the accumulated waste in the waste bins beside the exhibition area service doors. All waste must be sorted.

The dustbins in the exhibition area are only intended for visitors to the fair.

Measures when removing the stand

The exhibitor can leave the stand mat, decorations and other minor waste in a place within the stand set aside for that purpose by the environmental supervisor. Note that it is forbidden to leave furniture, walls, tower-like constructions, floor structures etc. in the stand. Please contact ISS Siivouspalvelut Oy if you want to have these handled and removed against a separate fee.

Other issues

For further information on the Finnish Fair Corporations's environmental policy, please contact the environmental supervisor, tel. +358 (0)9 1509 256 or +358 (0)400 711 657, fax +358 (0)9 142 358.
