The CCH employs an ecological waste disposal concept. This means that with the help of the waste producers (exhibitors stand constructors, visitors) the waste can be separated so that the reusable materials can be recycled. Cost for reusable materials amount to just 50 % of costs incurred for general waste, and as such the general principle is: " less waste = lower costs ".

All exhibitors are obliged to limit and also dispose of any waste, according to the conditions of participation and the technical guidelines.

We request you to submit the following order to the appointed contractor. The contractual relationship will be established between the ordering party and the appointed contractor

The order is placed subject to acceptance of the following conditions.

MRG Oellerking, Schultz, Tereg will collect and dispose of all rubbish with the exception of special waste (see below) from the exhibition stand named above during the build-up, open- and dismantling days at the above named exhibition. Special conditions are available for the disposal of complete or partial exhibition stands left after the event, which is not included in this agreement.

The price is EUR 4,00 per sqm net occupied space plus VAT for the complete period

Stand-Number: _____ **sqm:** _____

Bulky goods can be left packed on the stand and will be disposed of as arranged. **Special waste such as oil**, fats, emulsions, caustic solutions, paints, varnish, batteries, refrigerators, etc. may not be included in the general waste. The price for disposal of special waste is available on request. (**Please contact the above mentioned company for details on how to dispose of such materials**)

Terms of delivery and payment

1. Complaints must be made immediately. 2. Prices are quoted net without deduction. 3. The prices are valid for the entirety of the event including construction and dismantling time. 4.
