Dear friends and colleagues,

It is our pleasure to announce that the Heart Failure 2012, which will be held in Belgrade, Serbia, 19–22 May, will be organised not only by the Heart Failure Association of the European Society of Cardiology (HFA of the ESC) but also in conjunction with the European Section of the International Society for Heart Research and the ESC Working Group on Myocardial Function. The aim of our joint Scientific Committee is to create an exciting forum for both clinicians and scientists to present, hear, exchange, and discuss the most up-to-date research and clinical findings in heart failure.

The programme has been carefully planned to provide state-of-the-art information about all aspects of heart failure – from basic science, through diagnostic strategies (including imaging and biomarkers), pharmacological and device therapy, disease monitoring (both biochemical and technological) and organization of care (with special focus on the role of nurses, pharmacists and remote monitoring).

**Integration of pharmacology and technology in the era of personalized heart failure management**

will be the overarching theme of the programme (including the management of comorbidities, risk models, decision support systems, and cell therapy), with the interpretation and application of the latest clinical trial results given centre stage. Based on delegate feedback from previous meetings, we have ensured that these topics will be covered in a variety of formats (expert lectures in plenary sessions, interactive educational sessions with case presentations, debates and original scientific contributions) and by colleagues from many different countries. Participation of young cardiologists will be stimulated and supported through the young investigator award sessions for basic and clinical research, joint National Heart Failure societies joint sessions and challenging case presentations.

For those of you working clinically, our main objective is to provide the knowledge required for every day practice, including the use of devices and technologies (ICD, CRT, LVADs). Our faculty will provide a practical and international perspective, incorporating the latest ESC and other guidelines. For those whose principal concern is in research, sessions dedicated to the advances in the field of biomarkers, bio-imaging, and cell therapy might be of special interest.

Belgrade is one of the most exciting and rapidly developing Eastern European capitals, famous for its natural beauty, cultural events and hospitality. Belgrade will delight you with its two rivers, beautiful lake, many monuments, parks, archaeological sites and charming local restaurants.

Add this to the opportunity at the scientific meeting to network with your colleagues and friends in a welcoming environment and you have the complete congress experience!

On behalf of the organizing committee for the 2012 Heart Failure Congress, we invite you to join us for an educational and enjoyable four days in Belgrade.

Yours sincerely,

P. Ponikowski (Wroclaw, PL),
HFA President

P. Seferovic (Belgrade, RS),
Heart Failure 2012 Scientific Chairperson

J. Riley (London, GB)
HFA Nurse Representative

T. Eschenhagen (Hamburg, DE),
President ISHR European Section

S. Anker (Berlin, DE),
HFA President-Elect

Z. Papp (Debrecen, HU),
Chairperson Basic Sciences Section

I. Ekman (Gothenburg, SE)
HFA Nurse Representative

D. Hilfiker-Kleiner (Hannover, DE),
Chairperson ESC WG on Myocardial Function
Heart Failure General Congress Information
Attend Heart Failure 2012 to get to know what you need to know.

Why should I participate?

- 3,500 heart failure specialists in the same location
- World-class scientific information: over 1,100 abstracts submitted in 2011
- Over 75 scientific sessions selected by the scientific committee
- A comprehensive programme with global experts managed over 7 lecture rooms
- A variety of novel industry sponsored sessions
- Latest products & innovations discussed in the commercial exhibition

A GLOBAL AUDIENCE: DELEGATE PLACE OF ORIGIN 2011

Heart Failure 2012 Scientific Programme Committee
HFA Board members

Executive Committee
Prof. P. Ponikowski (PL) President
Prof. S. Anker (DE) President-elect
Prof. J. McMurray (GB) Past President
Prof. G. Filippatos (GR) Chairman Clinical Section
Prof. B. Pieske (AT) Chairman Basic Sciences Section
Prof. A. Maggioni (IT) Secretary
Prof. F. Zannad (FR) Treasurer

Board Members
Prof. A. Hoes (NL), Prof. I. Ekman (SE), Prof. T. McDonagh (UK), Prof. C. Maack (DE), Prof. V. Mareev (RU),
Prof. A. Mebazaa (FR), Prof. L. Neyses (UK), Prof. Z. Papp (HU), Prof. J. Riley (UK), Prof. F. Ruschitzka (CH),
Prof. P. Seferovic (RS)

**Language**

The official language during the Congress is English. No translation is available. Local language sessions will be, however, available in one lecture room throughout the entire congress.
Heart Failure 2012 Scientific Programme

Our main theme this year is “Treatment of heart failure: integrating pharmacology and technology”.

We will provide a complete programme for heart failure specialists that will enhance their knowledge, advance their skills and apprise them of the latest developments in their direct and related fields of activity. The added value of this year’s programme is the collaboration with the European Section of ISHR, through a track dedicated to research for both clinicians and researchers. A further collaboration with ESC WG on Myocardial function is an opportunity to explore specific topics with dedicated experts. We will present a comprehensive four-day programme constructed around a main theme to address all core topics with our mission always in focus: To improve quality of life and longevity, through better prevention, diagnosis and treatment of heart failure, including the establishment of networks for its management, education and research.

To watch out for at Heart Failure 2012:

- New ESC Guidelines on Heart Failure with dedicated sessions on their application in practice
- Dedicated regional educational track in local language – 6 sessions with clear learning objectives for patient care in the region
- The latest results from research trials presented in hotline and dedicated sessions
- Focus on hands-on and skills learning with constant spotlight on take-home messages for patient care

Main themes and objectives

- Treatment of heart failure
  Review treatment of congestion, a major unmet need in heart failure, as a main objective. Revisit biomarker and guideline orientated individual strategies for the most vulnerable patients. Compare your experience with the leading experts in the field of acute heart failure and optimisation of care for the most complex patients. Explore the recent advances in the management of heart failure patients with diabetes, obesity, and ventricular arrhythmias. Translate the results of the latest randomised trials into clinically detectable improved outcomes for heart failure patients.

- Co-morbidities and heart failure
  Explore in-depth co-morbidities and heart failure - Chronic obstructive pulmonary disease (COPD), diabetes, hypertension as well as new areas such as cancer, cardio-renal syndrome: in main sessions led by experts but also through the more practical angle of interactive educational sessions based on actual clinical cases.

- Devices and Technology for heart failure in 2012
  Discuss critical decision making in ICD and CRT implantation and follow-up. Review patient selection criteria for the use of LVADs for heart failure treatment. Explore the developments of telemonitoring and other monitoring technologies.

- Education and Guidelines
  Understand the management of patients with heart failure and be provided with guidelines to improve outcomes in the heart failure population with a practical application of the HFA guidelines to assist all heart failure professionals in their daily practice.

- Latest Updates
  On devices and therapies, ongoing trials and research to understand the emerging biomarkers, technologies, drugs and other developments in heart failure. Hear about the latest clinical trial data and patient registries.

- Basic Science, Basic Science translated for the clinician
  When researchers meet and interact with clinicians to discuss the science that will lead tomorrow’s translational initiatives. Sessions aimed at researchers, PhD students and early career scientists as well as at clinicians and all health care providers out.
Heart Failure Industry Partners Participation

The following is the list of Industry Partners who have participated in the previous edition of the Heart Failure Congress 2011:

Abbott  
Alere  
APCHF 2012  
AstraZeneca  
BG Medicine, Inc.  
Boston Scientific  
BRAHMS GmbH  
GE Healthcare  
HeartWare, Inc.  
Medtronic  
Novartis Pharma AG  
Orion Pharma  
Oxford University Press  
Pfizer Ltd  
Pfizer Ltd/BMS  
Philips Healthcare  
ResMed Europe  
RespiCardia, Inc.  
Robert Bosch Healthcare GmbH  
SERVIER  
ST Jude Medical  
Thoratec Corporation  
Vifor Pharma Ltd.  
Wisepress Medical Bookshop  
Wolters kluwer  
ZOLL CMS GmbH
1. Exhibition: Showcase your products, services and activities to over 3,000 delegates from 100 different countries.

Exhibition Space

Provide delegates with a unique opportunity to catch a glimpse of the continuous therapeutic and technological developments in the Heart Failure discipline by showcasing your products in the technical exhibition.

**Stands will be assigned on a first come, first served basis.**

**Application Deadline: 1 November 2011**

<table>

**Exhibitors Badges**

Exhibitors are entitled to a certain number of free badges. The number of free badges for each Exhibitor will be determined according to the floor space allocated as shown here.

**Price for additional badges: €40 excl. VAT**

Exhibitor badges will not give access to the scientific sessions of the congress except for those sessions sponsored by the exhibitor.

A new badge category (to be defined) will enable exhibitors to provide a limited number of their staff with access to the scientific sessions of the congress (details to be provided at later date).

**Exhibition Opening Hours:**

- Exhibition area of more than 2500 m² gross
- Opening Cocktail in the Exhibition
- Lunch/Coffee Breaks served in the exhibition

## Satellite Symposia

Participating companies may organise a scientific session at a dedicated time slot, known as a Satellite Symposium. These industry sponsored sessions are the perfect forum through which you may reach your target audience with the latest scientific information and developments.

Satellite Symposia, will be held within the Congress Centre in lecture rooms ranging in capacity from 200 to 1000 seats. A limited number of time slots have been made available for Satellite Symposia with the following costs:

<table>

</table>

The following items are included in the price of a Satellite Symposium:

- Room rental
- 1 Invite in Industry Programme
- 1 Weblink
- 1 room Hostess
- Access and use of audiovisual equipment in lecture room
- 1 Delegate Bag Insert

Satellite organisers may organise receptions before or after the Satellite. Lunch boxes may also be distributed before or after the symposium.

Satellite Symposia Programmes will be published in the Heart Failure Final Programme and on the Heart Failure Web Site. All Satellite Symposia programmes are subject to Heart Failure Board approval.

**Note:** The full list of equipment will be communicated upon room assignment. Cost of additional equipment, furniture, food and beverage will be at the expense of the sponsor.

**Deadline for application:** 1 November 2011
3. Industry Sponsored Sessions: 
Ensure your contribution to the outstanding Heart Failure Scientific Programme

---

**Hands-On Tutorials**

Companies will have the means of associating with the educational requirements of delegates in an exclusive and intimate environment through the organisation of Hands-On Tutorials.

These industry supported tutorials will provide participants with an opportunity for hands-on, one-on-one learning from leading experts in specific areas of expertise. Tutorials will be promoted in the Heart Failure final programme, in the official Heart Failure Scientific Programme Online and on the Heart Failure 2012 web pages.

Supporting companies can run tutorials between 8:30am – 6pm from Sunday through Monday. Tutorials can cater for up to 30 pax maximum per session. The tutorial programme will be approved by the Heart Failure 2012 Scientific Programme Committee and will provide key take-home skills for the participant.

The following items are included in the price of a Hands-On Tutorial:

- Room rental for 2 days
- 1 Invite in Industry Programme
- 1 Weblink
- Electricity, air-conditioning, tables, chairs & daily cleaning

Supporting companies may brand the outside wall of the assigned room and advertise the tutorials from their stand. Registration can be managed onsite or via the supporting company’s web site prior the event.

**Note:** The full list of equipment will be communicated upon room assignment. Cost of additional equipment, furniture, food and beverage will be at the expense of the sponsor.

**Cost:** €12,000 (Exhibitors), €17,000 (Non-Exhibitors) for 2 days

**Deadline for application:** 1 November 2011

---

**Other Educational Initiatives**

The Heart Failure Association supports projects from the industry which are directed at providing specialists with the essential skills to influence and improve patient care. Please contact industry_services@escardio.org for discussion of specific educational projects that you would like to provide for delegates at Heart Failure 2012.

</tr>
</tbody>
</table>
Final Programme Advertisements

The Final Programme hard copy contains the full scientific programme details, exhibition and satellite information and congress references outlines. Hard copies will be placed in the official congress bag and distributed to each delegate, offering maximum exposure and recognition to the sponsor.

Life-span: Congress permanent archive/reference material.
Back Cover Advertisement: €10,000 excl. VAT
Inside Front Cover Advertisement: €9,000 excl. VAT
Inside Back Cover Advertisement: €8,000 excl. VAT

Final Programme Bookmark

The bookmark is attached to the Final Programme and is included in each Congress Bag.

Lifespan: Congress permanent archive/reference material.
Price Bookmark excluding production: €15,000 excl. VAT

New! Industry Insert in Industry Programme/Note Pad

An Industry Insert is a page advert inserted in the Industry Programme detailing your satellite or exhibition activities (specs provided). Reach every delegate at the congress.

This is included as part of the Satellite Package.

Lifespan: Congress
Price of 1 insert: €5,500 excl. VAT

Web Link

Invite delegates to your congress activities (exhibition or satellite) by designing a promotional page which we will post on the Heart Failure 2012 Congress Web Pages. One Web Link promotes one activity.

Lifespan: Pre-Congress & Congress
Price for 1 Web Link: €2,000 excl. VAT
Unrestricted Educational Grants

Industry Partners can support the important educational platform of Heart Failure 2012 through an Unrestricted Educational Grant which demonstrates a company’s support and association with the congress as a whole. Support is acknowledged in the Final Programme and on the Heart Failure Congress web pages. The supporting industry may not advertise or promote their grant association.

Function Spaces

A limited number of Function Spaces have been made available in the congress centre for companies wishing to meet their guests in a quiet and intimate environment during the conference.

Planned activities must be submitted to the organisers for approval.

No training or showcasing of products/therapies may take place in the Function Spaces.

Companies are responsible for equipment and catering arrangements.

Various Congress Packages are available, options and fees upon request. Please contact Satellite@escardio.org

Applications & Rules of Participation

No industry sponsored presentations or formal gatherings may be held in or outside of the congress venue without prior approval by the ESC from **18-22 May 2012 (included)**.

All Exhibition, Satellite and Sponsorship forms should be completed, signed and returned as soon as possible, items will be assigned on a first come, first served basis.

**NB: Returning a signed application form implies a tacit agreement of the Heart Failure 2012 Guidelines for Industry Participation. The cancellation procedure stipulated on each application form strictly applies once received by the ESC.**

The Heart Failure 2012 Guidelines for Industry Participation will be communicated to companies participating at Heart Failure 2012 in due course to help with your organisation of the event.

All Terms and Conditions regarding your participation will be detailed in these Guidelines for Industry Participation.

Should you require any further information regarding the application process, please contact us at industry_services@escardio.org
Contacts

The ESC Sales & Liaison Officer is dedicated to working with our industry partners on optimising the value of your participation in line with your individual corporate objectives, please contact industry_services@escardio.org to discuss your company requirements at Heart Failure 2012.
