

ICNC10

Amsterdam, The Netherlands

15 May - 18 May 2011

Key4lead Advanced Information form

Lead gathering opportunities

- You can now obtain a complete file with the **organiser database plus the additional data from your custom fields**
- **Specially designed for :**
 - ✓ Gathering a list of visitors on a booth,
 - ✓ Defining your own custom fields and retrieving the contact details you want: Email (get the personal email address of your contact instead of generic address), Name, Country, Specialties,.....
 - ✓ Qualifying your contacts with « action codes »
Action code examples : to follow up immediately, is interested by,...
- **The different steps :**
 - ☐ Before the event:
 1. Go to your account (or create your account) on key4events portal and place your order online
 2. Configure your pocket PC online (see the next page for more details).
 - ☐ During the event:
 1. The sales staff should collect their pocket PCs which will be clearly identified at the badge reader desk
 2. On your booth, scan the badge of your contact
If a previously scanned contact comes back to your stand, you can collect information not taken on the first scan.
 3. First page, fill in the fields you created such as : Email Address, Name, Surname...
 4. Press the pre-defined action codes to qualify more precisely the nature of the contact
 5. At the end of the event, please go to the badge reader desk to download your scans
 6. From your account, you can download the full contacts details in a excel file or view aggregated statistics

Before the Event

How to customize your Pocket PC?

At portal.key4events.com, please do the following:

1. Login to your account
2. Go to "key4lead" tab
3. On the left side, select the Event
4. Click on Create a configuration Pocket PC
5. Click on "setup"
6. Configuration:
7. Assign each pocket PC a name for easy identification
 - Configure the ID Tab; 8 fields may be displayed where:
 - You can define each field choosing a title and a type (*text, select list, country list, email address*)
 - For a select list, you can define the elements
 - Configure your 40 action codes (displayed in the lead tabs)
 - Save
8. Create as many configurations as you need
9. For each configuration, link a Pocket PC(s)

key4lead Advanced global features

How to use the device?
