Dear Exhibitor,

The ESC Annual Congress is one of the most important events on our calendar. This year it will take place at the ICM in Munich from August 28 – September 1, 2004.

The New Munich Trade Fair Centre was inaugurated on the 12th of February 1998. Being relatively new it boasts some of the most advanced functional facilities and communication technology. The modern aesthetic design coupled with the efficient services available contributes to an extremely pleasant atmosphere that will certainly benefit our annual congress.

The exhibition will take place in halls B1 and B2. Both these halls are situated between the Green, Blue and Red zones. This allows excellent traffic flow between the halls and will certainly benefit traffic to your stand.

On this note we invite you to visit our stand services download area so that you can fully prepare for your stand requirements.

Thank you in advance for your early committal and feel free to contact us if you have any further queries.

Kind regards,

**BEN HAINSWORTH**
