This form is to be used to order mains electricity supply in the open-air area or loading yards. You can supply your own primary power distribution system. Customer-specific distribution systems are available on request.

We hereby order the following, subject to the conditions of contract overleaf:

Item no.	Please mark where applicable	Main electrical connection	incl. CEE socket for connection of a distribution cabinet:	EUR/unit
32403		3 kW (230 V/400 V, 50 Hz)	CEE 16 A 5p *	174.05
32405		5 kW (230 V/400 V, 50 Hz)	CEE 16 A 5p *	353.30
32407		7 kW (230 V/400 V, 50 Hz)	CEE 16 A 5p *	415.10
32410		10 kW (230 V/400 V, 50 Hz)	CEE 16 A 5p *	480.00
32415		15 kW (230 V/400 V, 50 Hz)	CEE 32 A 5p *	615.95

* Including one AC socket (230 V/50 Hz) for 24-hour power supply (e.g. for refrigerator/freezer)

Item no.	Please mark where applicable	Earthing of metal structures	EUR/unit
32870		Connection point for earthing a metal structure	27.55

Please note: Depending on model and type of stand construction, stand may require connection to the protective conductor (earthing/equipotential bonding) in accordance with DIN ENVDE 0100 (see also "Instruction Sheet for Electrical Installation in Exhibition Stands").

Item no.	Main electrical connection – 20 kW or more. Please indicate connected load desired (in increments of 5 kW)
32500	We will need _____ kW Costs are calculated using a basic rate of EUR 770.45 plus EUR 143.70 per additional 5 kW. Customer-specific distribution systems available on request.

Power supply connection:

- up to 50 kW includes one CEE coupler socket (5p) and one AC socket (230 V/50 Hz) for continuous power supply
- over 50 kW includes one CEE coupler socket, over 85 kW terminal connection feeder only

We will supply our own primary distribution system:

- Yes.** Our distributor is equipped with a master switch and a 30 mA RCD (residual current device).
We will need the following power supply connection: CEE _____ terminal _____
- No.** We will need a special distribution system.
Please call me _____ (phone no.)

Please note: Power consumption (item no. 32101) will be metered and invoiced separately at EUR 0.28/kWh.
A surcharge (item no. 32853) amounting to EUR 85.00 will be raised for any late orders submitted once the general stand assembly period has commenced. Moreover, MMG reserves the right to charge a supplement on the above prices for orders submitted after the closing date.

Place, date
Company stamp and legally binding signature of exhibitor

To facilitate installation of a main electrical connection, a ground plan (form 3.4) must be submitted.

p.t.o.

Electricity connection and supply conditions

1. Please use this form to order electricity main connection in the open-air area or the loading yards. Orders and stand diagrams must be submitted no later than six weeks prior to the beginning of stand assembly to MMG's Technical Exhibition Services Division. No guarantee can be given for the timely completion of installations applied for after this deadline.
A surcharge (item no. 32853) amounting to EUR 85.00 will be raised for any late orders submitted once the general stand assembly period has commenced. Moreover, MMG reserves the right to charge a supplement on the above prices for orders submitted after the closing date. Electrical installations are provided on a rental basis only.
2. Power supply lines will be installed in utility conduits wherever possible, from which they will be branched to the power supply transfer point (use this form for ordering) at ground level. Electrical installations within the stand and downstream of the transfer point between MMG and the exhibitor may be carried out by the exhibitor's own electricians or licensed electrical contractors (see also form 3.3).
3. **Serious violation of the regulations will result in the power supply being cut off. In such cases, no refund shall be due on the costs of installations already completed. Charges for the main connection will be invoiced in every case.**
4. All electrical installations of exhibition stand will be inspected by an expert for compliance with the regulations currently effective in Munich. Any deficiencies found are to be immediately rectified.
5. **The list of dimensions and tolerances supplied to the exhibitor or ordering party should be reviewed, countersigned and returned as soon as possible. This list will also be used subsequently for invoicing purposes. Grievances pertaining to the scope of products and services provided must be addressed to the Technical Exhibition Services Division at Messe München GmbH prior to stand disassembly in order to allow the opportunity for an appropriate assessment. Subsequent complaints regarding the scope of products or services will not be acknowledged.**
6. Repair work conducted on equipment not installed by MMG will be invoiced according to actual labour hours required.
7. Orders may be withdrawn up to 14 days before the general stand installation period begins; the exhibitor will be charged for the connections ordered in cases of cancellations submitted after this deadline.
8. The exhibitor is obliged to disconnect the power supply daily after the exhibition closes, using the master switch incorporated in the main connection. Circuits for devices needing a continuous current supply (separate outlets and circuits required) are exempt. The exhibitor shall be fully liable for the electrical installation and use thereof within the exhibitor's stand area.
For safety reasons, the entire power supply to exhibitors will be switched off approximately one hour after the end of the event. After the final day, this will not apply to exhibitors whose power supply order includes the stand dismantling period.
9. The General Terms of Contract for the Exhibitors' Service Booklet shall apply additionally.
